Dear Hiring Manager's

I am writing to express my interest in joining your organization as an IT Attachment / Internship candidate. I am currently pursuing my studies at KCA University and have developed strong skills in software development, networking, and digital solutions that I am eager to apply in a practical environment.

Over the past 2+ years, I have gained hands-on experience in:

- **Programming & Development:** Proficient in Python, C++, JavaScript, and Java with practical experience in web and app development (Angular, PHP, and intermediate React).
- **Web Solutions:** Designed and deployed websites including a tour company site, portfolio websites, and dealership platforms with SEO and responsive design.
- **Networking & Systems:** Holder of a Cisco certification in network design and management (beginner level), with understanding of intranet, LAN, and internet setups.
- **Creative & Digital Marketing:** Intermediate graphic designer with experience in social media management, website maintenance, and SEO strategies for businesses such as Kencare Autos.
- **Work Experience:** Worked remotely with DataEQ (South Africa), gaining exposure to teamwork, issue investigation in AI systems, and handling large-scale digital projects.

I am a fast learner, adaptable, and a strong team player who is committed to delivering quality results. My goal is to grow within a professional environment where I can apply my technical expertise while learning from industry leaders.

I would greatly appreciate the opportunity to discuss how my background can contribute to the success of [Company Name].

Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,

Hillary
